Make plans to attend the 2013 Association of Nigerian Physicians in the Americas 19th Annual Convention and Scientific Assembly. This year’s event will begin with the Opening Ceremony on Thursday at the Omni in Charlotte, North Carolina. With 2 1/2 days of interesting scientific sessions, round tables and guest lectures the ANPA Annual Meeting offers an academic opportunity of the highest standards. The theme of this year’s conference will feature: The Role of Surgery in Primary Care and Public Health.

The meeting’s social highlights include a charity golf event and the Annual Gala Dinner on Saturday evening.

**Accreditation**

**Southwestern Medical Center**
The University of Texas Southwestern Medical Center, the accredited sponsor, is jointly sponsoring this activity with the Association of Nigerian Physicians in the Americas.

**Off Label Uses**
Because this course is meant to educate physicians with what is currently in use and what may be available in the future, there may be “off-label” uses discussed in the presentations. Speakers have been requested to inform the audience when off-label use is discussed.

**Disclosure**
It is the policy of ACCME that participants in CME activities should be made aware of any affiliation or financial interest that may affect the speaker’s presentations. Each speaker has completed and signed a conflict of interest statement. The faculty members’ relationships will be disclosed in the handout.

**Course Director**
Fiemu Nwariaku, MD
UT Southwestern Medical Center

**Target Audience**
This activity is designed for practicing primary care physicians, internists, cardiologists, dentists, psychiatrists, psychologists, podiatrists, nurse practitioners, physician assistants and other allied health professionals.

**Purpose & Content**
The purpose of the annual convention and scientific assembly is to increase the participants’ knowledge related to the challenges facing minority healthcare providers in the provision of clinical and therapeutic services for diseases and conditions related to oncology, dentistry, mental health, respiratory, digestive, cardiology, and virology services, global health issues in developing countries, as well as technological advances that will impact the practice of medicine.

**Method**
Lecture and formal discussion. Didactic lectures and mixed presentation methodology on specific clinical topics by medical specialists and interactive audience participatory case vignettes, true/false questions and point-counterpoint faculty discussions.

**Objectives**
At the conclusion of this activity, the participants should be able to:

1. Discuss the use of surgery in general patient care.
2. Discuss the necessity of African healthcare providers to be more educated in procedures to improve patient care and outcomes.
3. Access information relating to current research and trends in basic surgical techniques.
4. Describe current state-of-the-art treatment and how to make basic treatment affordable to patients in resource-poor countries.
5. Develop methods to further educate Nigerian-based physicians to assist in improving basic healthcare.

**Accreditation**
This activity has been planned and implemented in accordance with the Essential Areas & Policies of the Accreditation Council for Continuing Medical Education through joint sponsorship of The University of Texas Southwestern Medical Center and the Association of Nigerian Physicians in the Americas. The University of Texas Southwestern Medical Center is accredited by the ACCME to provide continuing medical education for physicians.

**Credit Designation**
The University of Texas Southwestern Medical Center designates this live activity for a maximum of 16.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Saturday, June 29, 2013
Join us for ANPA’s 3rd Annual Golf Classic. All proceeds from this fundraising event will go to support the Association of Nigerian Physicians in the Americas (ANPA) in our effort to improve the health and well being of those in need. ANPA is a non-profit professional medical organization representing more than four thousand physicians of Nigerian descent and empathy, practicing in the United States of America, Canada and the Caribbean.

Our chapters, geographically spread all over North America, are actively involved delivering quality and affordable healthcare in all medical specialties to underserved areas. Many members are also involved in teaching and research. We also engage in charitable activities in our respective local communities through local chapter membership and we are active in supporting emergency relief to those in need during disasters. As part of this initiative, ANPA, through its membership, donated more than $30,000 to the Haiti Relief Fund.

Through our health missions and education activities, we collaborate with government agencies, medical institutions of learning and private organizations to develop and implement practical solutions to health problems in Nigeria. In response to an appeal by the Deans of Nigerian medical schools, ANPA secured the support of USAID, to achieve a comprehensive revision of the curricula of Nigeria’s 36 medical schools, this new curriculum is currently in a trial phase of the implementation process in some of the premier medical schools in Nigeria. Several other Nigerian stakeholders are participating in the project, including the Federal Ministry of Health (FMoH), Medical and Dental Council of Nigeria (MDCN), and the National Universities Commission (NUC).

Fee: $250/player

PRESIDENT'S LETTER

Dear Colleagues and Guests,

On behalf of the Association of Nigerian Physicians in the Americas’ (ANPA) Executive Committee and Board of Directors, I welcome you to the 19th Scientific Convention in the Queen City of Charlotte, NC. The conference program is rather dense and rich with this year’s theme, “The Role of Surgery in Primary Care and Public Health” and seeks to highlight how advances in surgical techniques across different surgical and medical specialties impact individual lives as well as influence societal economies. You will be hearing from various experts chosen locally and internationally. The convention will also highlight a change in how ANPA engages the Nigerian Political System in achieving our mission and vision.

You will also hear about the thread in graduate medical education in the US and how it impacts our members.

We are lucky to have the ECFMG (Educational Commission for Foreign Medical Graduates) to share their thoughts about the perennially vexing issue of physician placement after passing required examinations.

As we look to advance our mission in the US and Nigeria, there has to be some adjustment to our current strategy. This calls for us to closely engage other professionals and industry players who will bring a non-physician perspective to achieving our goals. To this end, you will be hearing a panel discussion from accomplished industry players drawn from the legal, banking, finance, political and telecommunications sectors.

The proposed strategy will be to create a smoother platform aimed at harnessing the strength of the Nigerian healthcare professionals in the Diaspora at various levels and capacities ranging from those who want to relocate, devote limited time in Nigeria to those who want to engage “virtually.” This will create room for all of our healthcare professionals to partake in the health care industry in Nigeria.

Despite frustrations, we need to stay the course. After all, no one says that success is a straight line. We should be prepared to take the twists and turns that define success.

We continue our strategic partnerships with the Federal Ministry of Health of Nigeria, the Medical and Dental Council of Nigeria, MANSAG (Medical Association of Nigerians Across Great Britain) and the Nigerian Medical Association. We look forward to formalizing relationships with NAPPAS (Nigerian Association of Pharmacists and Pharmaceutical Scientists) and NANNA (National Association of Nigerian Nurses in North America). Our parent student arm, DNPT (Distinguished Nigerian Physicians of Tomorrow), has shepherded members who are now residents and they continue to live the ANPA vision and are strongly represented here at the convention.

We are grateful to our distinguished guests listed in our program who have at their own expense honored us with their presence and expertise. Also, thank you to Ambassador Geoffrey Teneilabe (Consul General in Atlanta) for providing passport services during the convention.

We are eternally thankful to our platinum sponsors, Novant Health and Gilead Sciences. Our other top sponsors are Bank of America/Merrill Lynch, Fidelity Diaspora Banking, Impeto-Innovated Medical, United Airlines, Arik Airlines, Delta (Dr. Uduaghan) and Ondo (Dr. Mimiko) states, George Etomi & Partners, Bell-X, Templar Law Firm, as well as a special grant from the Charlotte Regional Visitors Authority (CRVA) who in addition to being a top sponsor was also instrumental in bringing the convention to Charlotte. Thank you also to all our exhibitors.

We are most grateful to the Program Committee, chaired by Professor Ajovi Scott-Emuakpor, for bringing us another brilliant scientific program. We also thank our Secretariat, headed by Nonie Lowry, for their tireless work. To ANPA Carolinas Chapter, chaired by Dr. Phillip Igbinadolor, you are simply the best and thank you for your generosity.

We hope you find this convention both interesting and stimulating and that you enjoy meeting up with old friends, classmates and making new contacts. We look forward to your feedback and to seeing you again at our 20th convention in Anaheim, California next July.

Best Wishes,

Michael Etomi, MD, MPH, FASN
President and Chairman of the Board
Association of Nigerian Physicians in the Americas
WELCOME ADDRESS BY THE CHAIRMAN OF ANPA CAROLINAS

U. Phillip Igbinadolor, DMD, FAGD
Chairman of ANPA Carolinas

It is my distinct honor and privilege to welcome you to the 19th Annual Scientific meeting of the Association of Nigerian Physicians in the Americas (ANPA) in the beautiful City of Charlotte, NC otherwise called the Queen City.

I bring you felicitations of the EXCO and the entire membership of ANPA Carolinas Chapter. I want to specially welcome the indefatigable President of our great association, Dr Michael Etomi and his EXCO to this historic convention.

As you all know, the vision of ANPA is “A Healthier Nigeria in a Healthier World”. Have we accomplished this goal? Ask yourself this pertinent question during this convention.

I came into office on December 1st, 2012 with Soji Adelekun, MD as Chair-Elect, Ben Ogunwale, MD as Secretary-General and Jude Onuoha, MD as Treasurer and we immediately swung into action to host ANPA convention in our beloved city of Charlotte, NC. These great men are simply wonderful! Whatever success we record today is due to their efforts and cooperation as members of Executive/Planning Committee for this convention. I owe you all a great deal of gratitude.

The United States of America (USA) is a great nation and made great by their citizens. It knows and appreciates the value of good quality education and of educated and well groomed men and women, hence my fellow colleagues who have sojourned so very far from Nigeria, and have found a welcome, can indeed proclaim to the world that you are in America and worthy Ambassadors of your country.

It gives me the greatest pleasure to address such a very distinguished gathering whose common purpose is to uplift the HealthCare delivery system of our motherland that needs complete overhauling.

I extend very special and sincere thanks to Ms. Tammi Hamilton – Chief Consultant at T-Level Consulting, LLC, Mrs. Melissa Small and her group for helping us with this event planning. I must confess, it has been a successful convention due to their tirelessly efforts and sacrifices.

I would also extend my gratitude to all ANPA members for their financial, moral and material contributions to the targets and progress of this association.

To every member present here today, endeavor to ask yourself “What have you done for ANPA and not what ANPA has done for you”.

According to Albert Einstein, “I fear the day that technology will surpass our human interaction. The world will have a generation of idiots”. Has that day arrived?

Finally, I say stay safe, have fun in the Carolinas and please have your yearly check up with a Board Certified Internist and your Bi-annual visit to your Dentist.

U. Phillip Igbinadolor, DMD FAGD.
